

VUmc

Cancer Center Amsterdam

VUmc Cancer Center Amsterdam (VUmc CCA) is a national and international leading center for cancer research and treatment. We are internationally recognized for our translational research: results from our research laboratory are directly translated into our clinic to benefit our patients.

VUmc CCA wants to improve the life expectancy and quality of life of people with cancer. It's our mission to force a breakthrough by developing innovative treatments for cancer. Our research focuses on early detection of cancer, a personalized treatment and to improve the quality of life of people with cancer. Please contribute to our groundbreaking research. Your gift assures that we continue this important work. Support VUmc CCA.

- EXCELLENT CANCER RESEARCH AND EXCEPTIONAL CARE
- EARLY DETECTION AND DIAGNOSIS
- PERSONALIZED TREATMENT
- QUALITY OF LIFE
